From the London Standard, Oct. 27. RUSSIAN MOVEMENT - A rumor was reulated in Berlin that the Emperor Nicholas had declared his intention to march 100,600 men to Vienna the moment that the Hungarians crossed the Austrian frontier. There is come appearance of truth in this materiant, for it will be redollected that a few days, since, we were told that the Hungarians had re-crossed the Austrian frontier, which fact we find fully confirmed by M. Zuleika, as chairman of the Committee of Safety, in the National Assembly, on the evening of the 19th; and upon a question being put, whether this was in consequence of the talk of Russian intervention, he replied, that "he had not received any official information on the subject; but that he believed the Provisional Government at Pesth had received an authorized intimation to this effect from Warsaw or St. Petersburg." Whatever, therefore, might have been the intentions of the Hungari. ans, or of the Viennese armed population in endeavoring to repel the Imperial power, such a resolution on the part of the Government of St. Petersburg might well cause the former to ponder upon the course they were pursuing, and induce them to return to their native scil. Hungary .- A letter from Pesth, of the

17th inst., Elmounces that the Hungari ans had captured the two fortresses of for Collection. Leopoidstadt and of Mingatz. The Austrian commanders of Temeswar and of Arad had been outlawed. The Wallach. ian revolt in Transylvania had been suppressed, and three magnats and a bishop had been hanged. Kossuth was expected to leave Pests, on the 18th, at the head of a numerous army of reserve, com posed of Landsturm. It was said that the Austrian General, Simonitz, coming and A received in payment, from Gallicia, had been defeated, and half of his men killed, by the peasants.

The T-legraph Suits. From a despatch received in this city: to day, we learn that the supremacy of the law in protection of Professor Morse's patent for the telegraph has been completely established over the infringements of Mr. O'Reilly, and his associates in the West, Judge Monrce, of the United States district court of Kentucky, has issued an order (now in execution) for the marshal to take possession of the O'Reilly line. and interrupt its use until further order of 1st 1817 and since that time, are now in the court, retaining it from the control of the hands of A. ARRIVALS AT THE PORT .- The num ber of vessels which liave arrived at this port, since the opening of navigation is 1,148. Of these there were:

Stehmboats Propellers, 162 Barques and Brigs, 188 Schooners. This is exclusive of a greater number

of vessels in the lumber trade, which are not included in the above, and which would make the total arrivals from 15 to

Last year the arrivals of every kind of eraft amounted to 654. This, also, does not include a large number of vessels which do not appear on the Collector's books. A comparison of the arrivals of the two seasons, however, exhibits a great increase in the favor of the present. Chic. Dem.

That scourge of the West, Fever and Ague, together with its attendant evils, can be thoroughly and permanently cared by the use of Smith's Tonic Syrup or Vegetable Febrifuge .-Some of the most obstinate cases of this distres-ing disease have yielded to its sanative powers; and in no instance within our knowledge, has it falled in effecting a permanent cure.
